# TITANFORGE

GAMING

Thank you for purchasing this TitanForge asset!
For the best looking results, please set Color Space to Linear instead of Gamma and install the Post Processing package in the Package Manager. See below for visual aids.

Click Edit then Project Settings.
Choose Player and change Color Space to Linear.

After that click Window then Package Manager. Make certain that you have all Packages Enabled and search for Post Processing Package. Install Post Processing.

Then you should be ready to enjoy your new package!
Thank you again and please let me know if you have any issues or suggestions.
